

DIGITAL PHOTO PRINTER

QW410

4.5×8" (114×203mm) 4.5×4.5" (114×114mm Using 4.5×8" Media) lightweight¹
New de-curling
mechanism
Variety in printing size
Energy savings²

1 Compact and lightweight

The new photo printer ranks among the most compact and lightest 1 of printers available in the global market today. The new photo printer is 68% smaller and 57% lighter than the DS-RX1HS and 42% smaller and 50% lighter than the DP-DS620 which is designed as the compact model.

2 Flatter prints

The QW410 is equipped with an innovative mechanism that reduces the curl of the print, even while maintaining a smaller, compact footprint. The de-curling function will switch on automatically depending on the paper count left on the roll.

3 Proprietary 4.5-inch print head width

The new printer employs a proprietary 4.5-inch print head to allow consumers to now print 16:9 wide-ratio photos. By eliminating the need for cropping a wide format image down to a traditional 3:2 ratio (4x6" print) the consumer can preserve the whole image.

4 Energy

The photo printer reduces power consumption by approximately 28% compared to the DS-RX1HS, approximately 35% compared to the DP-DS620. As a result, battery-powered operations can be extended² for a greater period of time³.

One of the most compact and lightest of printers available in the global market today (W) 208mm×(D) 240mm×(H) 198mm Approximately 5.8kg RX1 HS

- *1 Comparison with industrial use dye sublimation digital photo printers based on rolled paper, as of the end of July 2019 according to DNP.
- *2 Possible to select equipment compatible with pure sine wave AC output batteries, such as a portable power supply in excess of 300W. This product is Class I equipment and must be used with grounded power.
- *3Continuous printing for approximately 1 hour or more is possible at a capacity of 200 Wh. Please consult your local dealer for details.

Printer specification

Model name	DP-QW410	
Print method	Dye sublimation thermal transfer	
Resolution (dpi)	300×300dpi	
Print size	4x6" 102x152mm 4x3" 102x76mm	
	4x4" 102x102mm 4x4.5" 102x114mm	
	4.5x8" 114x203mm 4.5x3" 114x76mm	
	4.5x4.5" 114x114mm 4.5x6" 114x152mm	
	By using SDK, it is possible to set a variety of print sizes. Do not use media of different width on the same printer.	
Print capacity	4×6" /4×4" 150sheets	
	4.5×8" /4.5×4.5 110sheets	
Print speed4	curl correcting function off High-speed Approx. 19 seconds	
	4×6" High-quality Approx. 24 seconds	
	4.5×8" High-speed Approx. 24 seconds	
	High-quality Approx. 30 seconds	
	curl correcting function on High-speed Approx. 22 seconds	
	4×6" High-quality Approx. 27 seconds	
	4.5×8" High-speed Approx. 27 seconds	
	High-quality Approx. 33 seconds	
Print finish	Glossy/Matte/Partial Matte*4	
Buffer memory	32MB	
Interface	Compatible with USB2.0 type-B connector	
Printer driver	Windows 7 (32/64 bytes), Windows 10 (32/64 bytes), Windows 11	
Power supply	AC100V~240V, 50/60Hz Auto switching	
Power consumption	When printing: Approximately1.7A (100V, 50/60Hz)	
	When idle: Approximately 0.15A	
Dimension	(W) 208mm × (D) 240mm × (H) 198mm	
Weight (Excluding accessories and consumables)	Approx. 5.8kg(13 lbs)	

Print conditions: Comparison with 128 gray-level images, high-speed mode, and glossy finish in an indoor environment with an output condition of 25 ± 5 °C * SDK required

Consumables	
QW410 MEDIA SET (4x6)	150 prints/roll x 2 set
QW410 MEDIA SET (4.5x8)	110 prints/roll x 2 set
